Core Competencies

C4ISR/IEW&S - SVS system and software engineers are unmatched in their field and bring expertise in solution architecture to our customers

IT Services and Solutions - SVS provides services and solutions for Software support Environments and Facilities and Post Production Software Support (PPSS) and Post Deployment Software Support (PDSS)

Cyber Security - SVS provides secure solutions in cyberspace to keep your information as safe as possible; Intelligence systems and networks

Cloud Computing - SVS provides software engineers with real-world DoD experience utilizing Ubuntu, Solr, Hadoop and Zookeeper

Operations - Oversees Contingency Operations (OCO), Information Operations (IO), Military Operations Other Than War (MOOTW)

Big Data - SVS enables organizations to analyze both structured and unstructured data to improve decision making in critical development areas

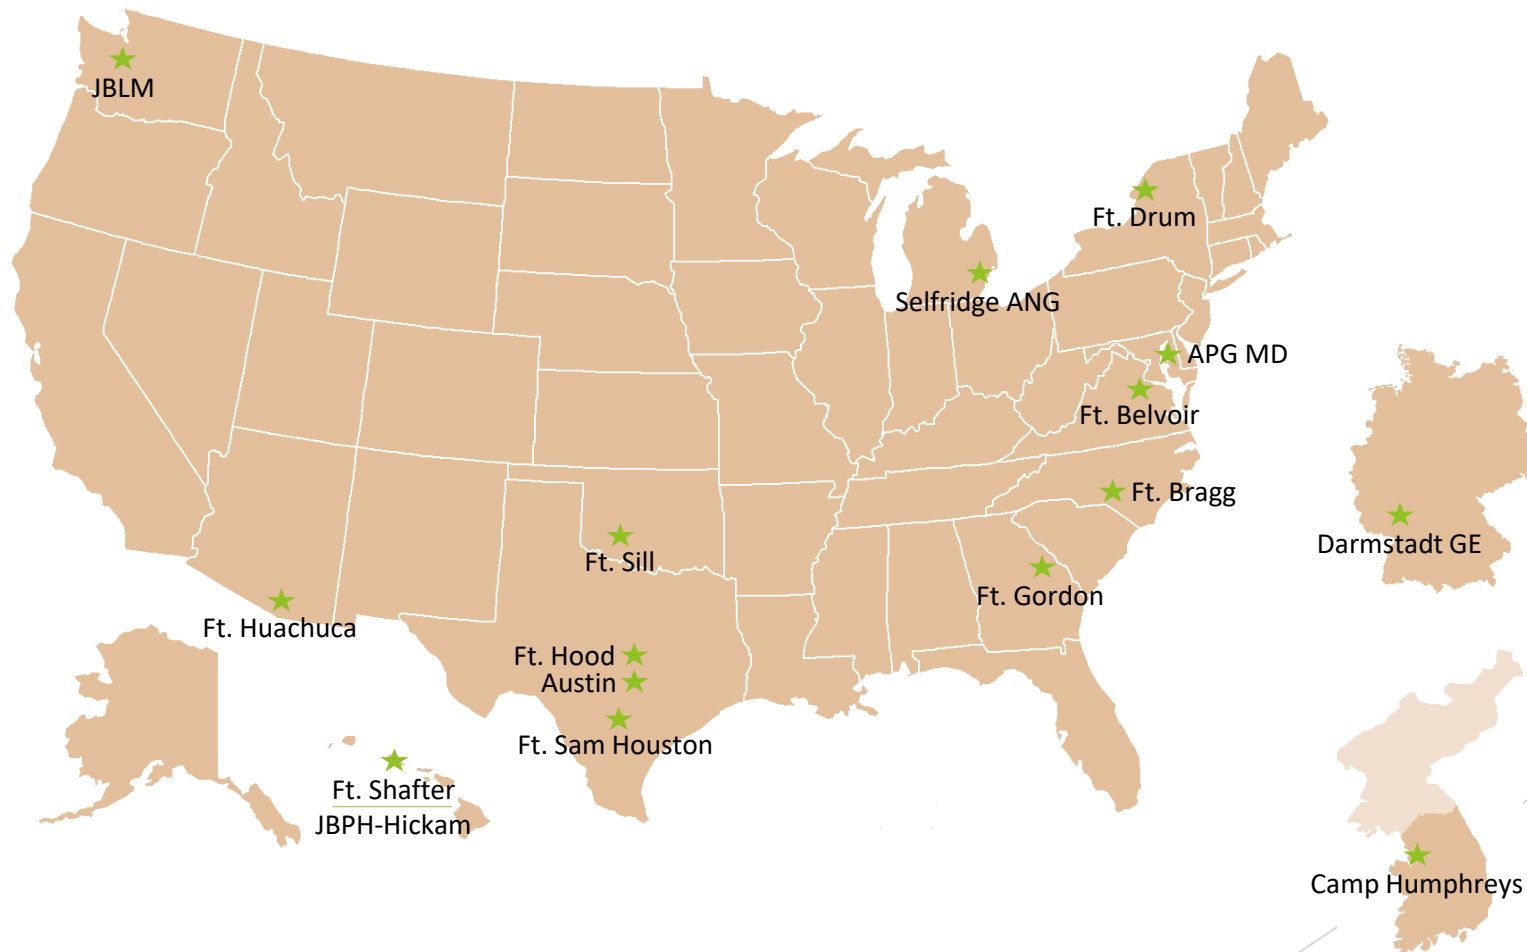

Training - SVS's C4ISR training knowledge and experience bridges the gap between people and technology

Key Capabilities

- Intelligence Architecture Engineering
- Cross-Domain Solutions
- Remote Monitoring and Maintenance
- Remote Backups and Restorations
- Remote Installation of Patches and Upgrades
- Scalable Data Storage Solutions
- Data Exchange with National Level Resources
- Social Media Domain Data Mining
- Intelligence Data Ingestion
- DCGS-A Fusion Brain Installation and Sustainment
- Knowledge Management
- Web Application Development
- Product Integration
- Extraction and Normalization of Unstructured Data
- Cloud Based Solutions
- Field Service Support
- Security Engineering
- Information Operations
- Virtual Machine Solutions
- Computer-assisted Cross-cueing
- Post Development Software Support
- Post Production Software Support
- Integrated Solutions Management
- Cyber Network Sensor Data Ingestion
- User Customizable Views and Displays
- User Activity Monitoring Cyber Solutions
- Extraction and Translation of Metadata
- Continuity of Operations Fail-over Solutions
- Intelligence Analytical and Collaboration Tools
- Full Scope SharePoint Design, Development, and Automation

Locations

IDIQ Vehicles (prime)

- Seaport Enhanced Program (Seaport-e)

IDIQ Vehicles (non-exclusive subK's)

- Army Global Tactical Advanced Communications Systems (GTACS)
- Technical Information Engineering Services (TIES)
- Army Intelligence and Security Command (INSCOM) Global Intelligence (GI)
- Army Worldwide Communications and Infrastructure Support (WCIS)
- Advanced Expeditionary Warfare Development (AEWD)
- SOCOM Wide Mission Support Category B (SWMS B)
- Defense Systems (DS) Technical Area Task (TAT)

Current Task Orders

SSES NexGen Worldwide Systems Field Software Support

Systems support to the Warfighter providing: software troubleshooting, systems training, data management and systems security and maintenance.

Sub-contractor to ManTech; Contract Number: W15P7T-12-D-E005 / KX04

Contract Expiration: January 2020

SSES NexGen DCGS-A Integration, Engineering, and Technical Support

Software integration, PPSS, PDSS, cyber security, IA, CM, and RDIT support

Sub-contractor to Sotera Defense; Contract Number: W15P7T-12-D-E003 / KX01

Contract Expiration: September 2018

SSES NexGen CECOM SEC IEW&S Software Engineering and Sustainment

Software engineering and sustainment, Post Development Software Support (PDSS) and Post Production Software Support (PPSS) services

Sub-contractor to Sotera Defense; Contract Number: W15P7T-12-D-E003 / KX03

Contract Expiration: December 2018

S3 DCGS-A Overseas Contingency Operations (OCO)

ISR support services that encompasses software engineering, system fielding, Embedded Trainer (ET) training and other ISR technical support for DCGS-A Family of Systems (FoS)

Sub-contractor to ManTech; Contract Number: W15P7T-06-D-E403

Contract Expiration: August 2018

Current Task Orders (con't)

S3 DCGS-A Program of Records Modernization Support (POR)

ISR support services that encompasses software engineering, enhancement, and integration of existing software into the DCGS-A and associated POR objective architecture

Sub-contractor to ManTech; Contract Number: W15P7T-06-D-E403

Contract Expiration: July 2018

Defense Systems (DS) Technical Area Task (TAT) 2T02

Weapon systems, survivability/vulnerability, RMQSI, advanced materials, military sensing, energetics, autonomous systems, directed energy, non-lethal weapons

Sub-contractor to CAS Inc.; Contract Number: FA8075-14-D-0025

Contract Expiration: June 2019

GSA ITSS PM MC Global Fielding Support

C4ISR services including installation, logistics, & NET Instructor support to Mission Command Family of Systems

Subcontractor to Bowhead, Contract Number: W911NF-15-D-0004

Contract Expiration: February 2021

Geospatial Intelligence (GEOINT) Enterprise Tasking, Processing, Exploitation and Dissemination (TPED) Service (GETS) IT Support

Deliver GEOINT toolsets through an enterprise-grade Software-as-a-Service (SaaS) platform

Sub-contractor to CACI; Contract Number: GS00Q0-9B-G-D0037 and GSQ041-6D-B-0029

Contract Expiration: June 2021

Current Task Orders (con't)

Project Manager Sensors – Aerial Intelligence (PM SAI)

Acquisition management, systems engineering, technical support, logistic support planning, and other management support services

Sub-contractor to KBRWyle; Contract Number: W15P7T-10-D-D412 / KZ01

Contract Expiration: September 2019

Service Delivery & Engineering Information Technology Support Services (SD&E ITSS)

Provide engineering services and technical support to the Department of Veteran's Affairs

Sub-contractor to SystemsMadeSimple, A Leidos Company; Contract Number: VA118-16-D-1004

Contract Expiration: September 2019

Systems Engineering and Technical Assistance (SETA) Support for Product Manager Radars

Systems engineering and technical assistance support services

Sub-contractor to Engineering Solutions & Products LLC; Contract Number: W56KGY-17-C-0011

Contract Expiration: May 2020

Logistical Support – Communications Security Logistics Activity (LOG-CSLA)

Logistics support, tracking, reset, and analysis of strategic Controlled Cryptographic Items and deliver COMSEC TRAINING

TEAM Programs of Instruction worldwide

Sub-contractor to AASKI; Contract number: W15P7T-10-D-D421 /Y601

Contract Expiration: July 2019

Current Task Orders (con't)

DoD and Army Business Systems Software Engineering & Sustainment Services

Software engineering and sustainment of the critical enterprise information systems used throughout the Army and DoD

Sub-contractor to Sotera, a KeyW Company; Contract Number: W15P7T-12-D-E003 KX04

Contract Expiration: April 2020

Defense Readiness and Reporting System – Army (DRRS-A) Software Engineering & Sustainment Services

Provide lifecycle sustainment support for the Defense Readiness Reporting System, including systems administration, software development, software engineering and information systems security engineering

Sub-contractor to Sotera, a KeyW Company; Contract Number: W15P7T-12-D-E003 KX02

Contract Expiration: September 2018

Why SVS?

SVS is committed to providing the best working environment for our employees and unparalleled service and support to our customers.

When you need complex technical solutions, our subject matter experts can help guide your decisions. You need to know the complete range of options, supporting tradeoffs and evaluations to balance cost and performance. Semper Valens provides highly knowledgeable engineering expertise and management oversight to ensure that your mission is successful, delivering an optimized solution at an affordable cost.
